

COURSE IN SUSTAINABLE PAINTING PRACTICES - 22002VIC

COURSE OUTLINE

Purpose:

The Course in Sustainable Painting Practices aims to provide experienced painters, decorators and existing workers the opportunity to upgrade their skills and knowledge for employment in the area of environmentally sustainable painting practices by promoting, developing and maintaining sustainable painting practices and environmental activities. With an increase in public awareness of sustainable painting practices, painters need to maintain a competitive advantage and keep up with consumer and industry demand of sustainable practices, products and features.

The course will allow a painter to undertake environmentally sustainable painting practices which focus on the consumer and industry-specific needs.

Graduates will be able to:

- Research best practices
- Locate resources for the sustainable painting industry
- Develop and maintain business relationships and networks
- Manage response to consumer needs in preparation for work
- Evaluate sustainable painting work practices.

Certification:

Candidates will be awarded a Statement of Attainment.

Duration:

12 hours

Maximum Participants:

15 persons.

Cost:

\$575 per person. The Construction Training Fund subsidy of \$460 is available to eligible candidates. Contact www.bcif.org for eligibility.

Total price: Non-member of Master Painters Australia (WA) Association: \$120
Member of Master Painters Australia (WA) Association: \$60
