

Enviro West™

Sustainability in

Plumbing

The innovative Enviro West™ training program has been designed to provide West Australian plumbers with the relevant information, knowledge and skills, now required to meet sustainability requirements for plumbing in Western Australia.

Course information is based on the latest industry information and regulatory requirements including: AS3500 National Plumbing & Drainage Standards; the Building Code of Australia; AS1547 Guidelines for Greywater reuse (onsite dispersal of effluent and design) and Water Services Regulations 2000.

Key Topics

- Water Efficiency
- Energy Efficiency
- Greywater Reuse & Design
- Rainwater Harvesting & Design

The Enviro West Sustainability in Plumbing training course is open to plumbing contractors, licensed tradespersons and apprentices currently working in the building and construction industry. Upon successful completion of the training program, course graduates will receive a Certificate of Completion and will also be accredited on the Master Plumbers and Gasfitters Association of WA's Enviro West website (if members of the Association at time of course completion).
